Fengshuo Liu

N1110.01, One Baylor Plaza
Houston, TX, 77054
Phone: +1 (929) 290-9310
E-mail: Fengshuo.Liu@bcm.edu

Education

2021-present	Ph.D. candidate (Cancer and Cell Biology)	Baylor College of Medicine, Houston, TX
2019-2021	M.S. (Immunology)	New York University, New York, NY
2014-2018	B.S. (Biological Science)	Xi'an Jiaotong-Liverpool University, China

Honors and Awards

2024	Claude W. Smith Outstanding Research Performance (One awardee per graduate program annually), Baylor College of Medicine
2017-2018	Outstanding Student of Xi'an Jiaotong-Liverpool University
2017	National Scholarship, China
2016-2018	National Student Grant, financial support for student with outstanding academic performance
2016-2017	Gold Prize , International Genetically Engineered Machine (iGEM)
2015-2016	Silver Prize , International Genetically Engineered Machine (iGEM)

Research Experiences

2021-present Graduate Research Assistant at Dr. **Xiang H.-F. Zhang**'s Lab
Cancer and Cell Biology Program in Graduate School of Biomedical Science
Baylor College of Medicine, Houston, TX

- Using high-dimension analysis, profiles the cancer and immune system's dynamic changes in response to tumor progression.

2019-2021 Graduate Research Assistant at Dr. **Reizis Boris**'s Lab
School of Medicine
New York University, New York City, NY

- Plasmacytoid dendritic cells kinetics in response to viral infections and tumor progressions through mouse model.

2017-2019 Undergraduate Research Assistant at Dr. **Sung-Kay Chiu**'s Lab
Department of Biological Science
Xi'an Jiaotong-Liverpool University, Suzhou, China

- Applied recombined protein into the mammalian cell medium and evaluated its effects on cell proliferation and migration.

2015-2017 iGEM member at Xi'an Jiaotong-Liverpool University
International Genetically Engineered Machine (iGEM) .
Synthetic biology team, Department of Biological Science
Xi'an Jiaotong-Liverpool University, Suzhou, China

- Developed the random mutation cassette by random mismatch mechanism of the Qß viral genome.

Poster and Conferences

2024	Cancer and Cell Program Symposium, BCM	Poster	2nd place
2025	Cancer and Bone Society Symposium	Presentation	

Reviewing activities

2024-present	Active Reviewer	*Nature Reviews Cancer* *Cancer Gene Therapy*

Teaching & Leadership

2023-2024 Monash University
Course: BMS5007 Biotechnology
Instructor: Dr. Yuzhou Wu
▶ Held online office hours and graded homework/exams.

2020 New York University
Course: CORE-UA-303 Human Genetics
Instructor: Dr. David Fitch
▶ Led weekly lab and recitation sessions for a class of 40 students.
▶ Held weekly Q&A sessions and graded assignments.

Data Analysis Skills

- Bulk RNA sequencing
- Single-Cell Sequencing
- Trajectory inference (including monocle3, RNA velocity)
- Single-cell pseudo-bulk transcriptomic comparisons
- Pathway enrichment analysis
- Genome analysis
- Special transcriptomic
- Multiplexed imaging analysis
- Computation language: R, Linux, and Python

Experimental Skills

- Molecular clone
- Mammalian cell culturing
- Flow cytometry analysis
- Protein expression, purification, and *in vitro* folding
- Mouse surgery (tumor implementation, tumor removal)
- Molecular analysis (PCR, qPCR, WB, BCA assay)
- Working with mouse models
- Confocal imaging

Activities

2015 Amazon Jungle Conservation Project
Chontachaka, Peru
▶ Identified and documented animal species; relocated endangered plants to designated preservation fields.
